

## **ABSTRACT**

### **Web Portal**

- 5     A web portal on the Internet for a plurality of subscribers, said web portal comprising  
a plurality of user accessible web pages, each of said web pages being associated with  
a subscriber and presenting information from said subscriber. The web pages are  
hosted as sub-pages under a common Internet address for said web portal. Further-  
more, the web portal comprises a design tool for the subscribers for editing their asso-  
10     ciated web page on said web portal.
